### DETAILED ACTION

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 2-6, 11, 13, 14, 17, 18 AND 28-35 drawn to various methods of treating diseases with compounds and compositions of II classified in class 514, subclass 167; and
- II. Claims 15, 16, 19-25, 36 and 37 drawn to compounds and compositions, classified in class 552, subclass 653.

Inventions of Group I and II are related as process (method) and apparatus (compositions) for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the compositions of Group III can be used to treat various diseases as set forth in the claims.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

It is also suggested that applicant provide the Examiner with prior patents and the number of pending application since it appears that the possibility of a double patenting situation exists.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore J. Criares whose telephone number is 308-4607. The examiner can normally be reached on 6:30 A.M. to 5:00P.M. Monday through Thursday.
